

! The new Menu requires the URLs [www.bmwcenternet.com](http://www.bmwcenternet.com) and [www.dealerpseed.net](http://www.dealerpseed.net) to be in the Local intranet zone of your Internet Explorer (Version 6, 7 or 8).

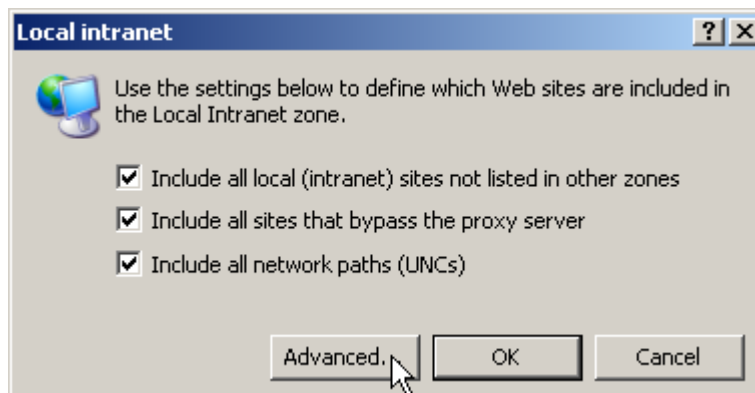

You can find this setting in your Internet Explorer under Tools → Internet Options... → Security.

Just choose Local intranet and then Sites...

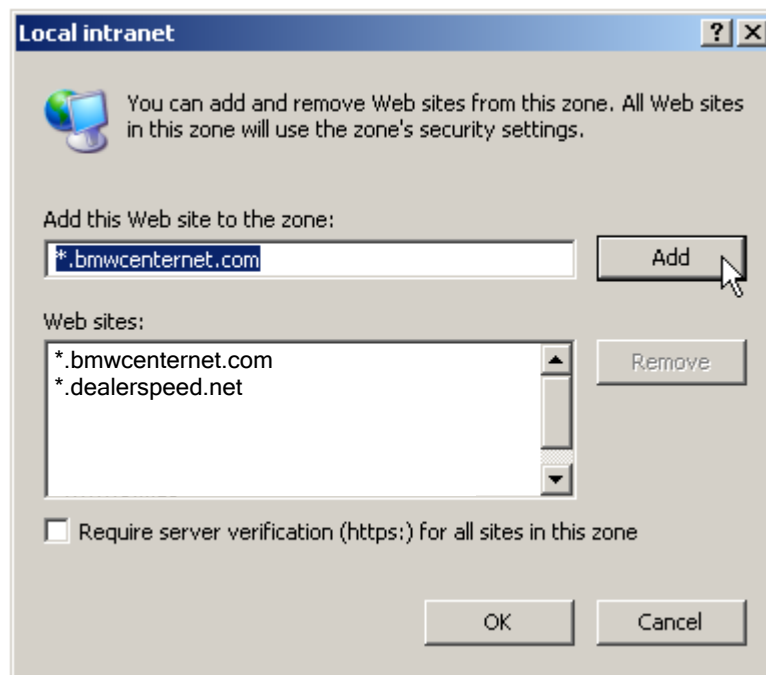

**Fig. 1: Internet Explorer - Security Settings**

Select Advanced in the following dialog.

**Fig. 2: Internet Explorer - Local Intranet – Advanced**

Add “\*.bmwcenternet.com” and “\*.dealerspeed.net” to the list of Local intranet websites and click OK.

**Fig. 3: Internet Explorer - Local Intranet Zone Settings**

Now your Internet Explorer is set up for displaying the new Top Nav Menu correctly and you should not have any problems.

- ❗ CenterNet/DealerNet/Motorrad still requires Internet Explorer (Version 6, 7 or 8). No other browsers are supported at this time.
